

TRAINING INFORMATION SHEET

NHSS 2 Series Internal Auditor

Course Description

This Specialist Internal Auditor course provides attendees with the techniques to undertake structured internal audits referencing the requirements of NHSS 2 Series (National Highways Sector Schemes 2a 2b 2c). This two-day course is structured to provide delegates with information regarding the skills and techniques to prepare, conduct and report internal NHSS 2 Series audits.

Who Should Attend?

Attendees need to be trained Internal Auditors and have a working knowledge of ISO9001:2001 either through attending a Training introductory course or through a practical understanding. The NHSS 2 Series Internal Auditor course is appropriate to any personnel wishing to develop the necessary skills, techniques and knowledge to prepare them for undertaking NHSS 2 Series internal audits.

This specialist internal auditor course is equally applicable to existing auditors, newly appointed auditors, health and safety managers/advisors, quality managers, environmental managers/advisors, integrated risk managers and any other personnel with a desire to develop their understanding of NHSS 2 Series auditing.

Benefits to Your Business

A thorough understanding of the processes involved with auditing management systems assists with the identification of gaps and areas of concern. It can also identify areas which require further improvement and help to reduce risks and recurrence of problems.

Course Structure

- An overview of management system auditing
- History of NHSS's
- An overview of NHSS 2 Series in relation to auditing the requirements
- Auditor competence, knowledge and skills
- The audit process
- Conducting the audit

The Trainer

The trainer for this specialist training course is a Certification Body QMS EMS H&SS NHSS Lead Assessor – Professionally Qualified in Building and Civil Engineering with over 30 years experience of which 20 years includes NHSSs and their industry predecessors Quality Assessment Schedules (QAS's) – The trainer is also a Highways Agency Technical Auditor.
